HANGCHA GROUP CO., LTD. reserves the right to make any changes without notice concerning colors, equipment, or specifications detailed in this brochure, or to discontinue individual models. The colors of trucks, delivered may differ slightly from those in brochures.

The World of Hangcha

INNOVATIVE SOLUTIONS NEW POWER NOW

Lithium-ion technology (Lithium Iron-Phosphate), was developed jointly by HANGCHA and CATL for use in material handling equipment applications. These innovative and reliable battery cells and modules are manufactured to the highest standard by CATL exclusively for HANGCHA's forklift line.

WHY PARTNER WITH US?

OVER 50 YEARS EXPERIENCE IN
MATERIAL HANDLING EQUIPMENT

HANGCHA GROUP

Hangcha Group is the leader in full line forklift manufacturing in China and among the top 8 in Industrial Trucks and Services in the world, and employs over 6,000 people worldwide.

Hangcha Group was founded in 1956. 68 years later, we continue to manufacture reliable material handling equipment. In 2016, Hangcha Group went public on Shanghai Stock Exchange. In 2023, more than 245,000 new Hangcha units were sold worldwide. Quality and innovation are two of the reasons that Hangcha products are distributed to more than 180 countries & regions with about 11% in global market share.

Now, we can offer a complete fleet of material handling equipment, from 1-48t internal combustion counterbalance forklift, 0.6-48t electric forklift trucks, warehouse equipment, 3-6t side loader, empty container handler, reach stacker, AGV and much more. Our annual production capacity is more than 400,000 units thanks to the intelligent manufacturing factory.

In recent years, Hangcha Group has launched a series of new energy products varied from counterbalanced trucks, warehouse equipment and AGVs and we provide alternative solutions to diesel products, such as li-ion, high-voltage li-ion and hydrogen fuel cell trucks, which can deliver the performance of an IC truck in terms of productivity and efficiency.

HC FORKLIFT AUSTRALIA PTY LTD

HC forklift Australia Pty Ltd was incorporated in 2022, which wholly invested and owned by Hangcha Group. Headquartered in 20-24 Bessemer Drive Dandenong south 3175 Australia, where we have large inventory of spare parts and forklifts, we are committed to providing the quality forklift and warehouse products along with services and support to our dealers and customers across the country, we are doing utmost to give you more choices.

LITHIUM POWERED

THE FUTURE IS NOW

SUPERIOR PERFORMANCE, INNOVATIVE TECHNOLOGY, ECONOMICAL SOLUTION.

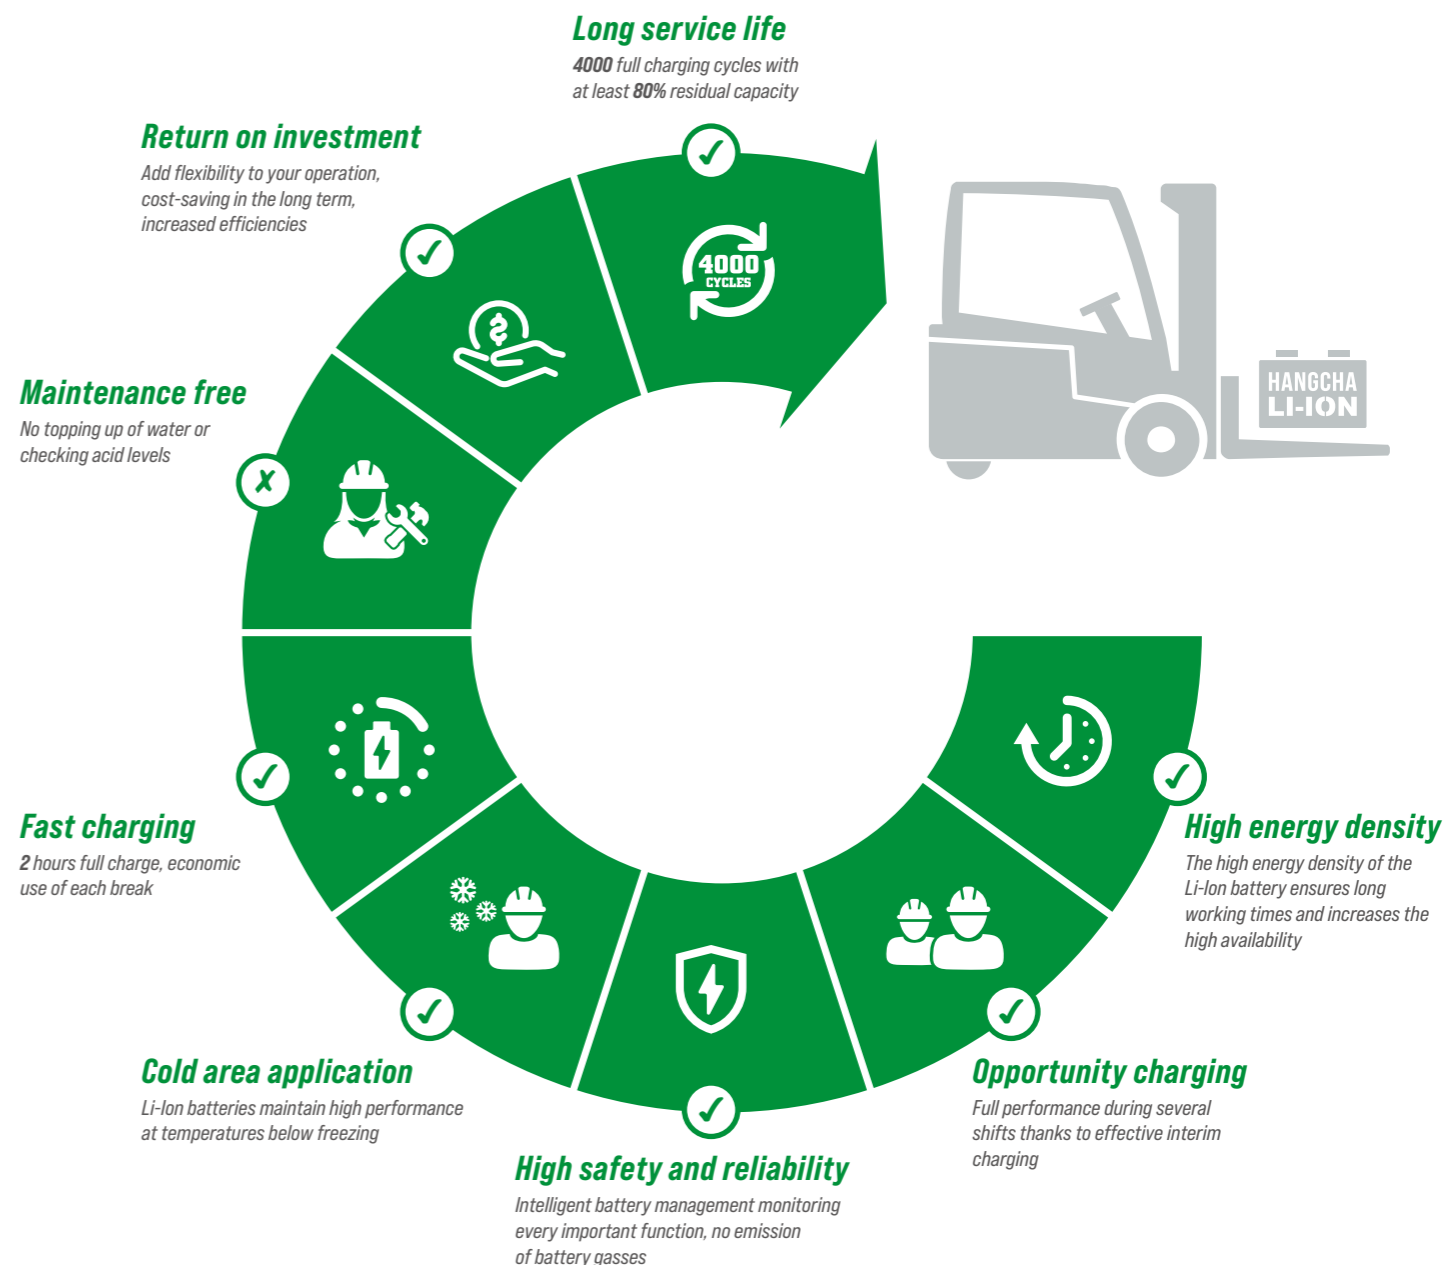

- >> / Long service life
- / Maintenance free
- / High energy density
- / Energy saving
- / Fast charging
- / Compact body
- / High safety and reliability

LITHIUM BATTERY ADVANTAGES

- / We use square lithium iron phosphate batteries and modules used in large quantities by commercial vehicles in mature economies.
- / The module uses an aluminum alloy frame which is sturdy, lightweight and with excellent heat dissipation.
- / Safe and effective: Charging efficiency as high as 98%, thermal runaway temperature 600 °C or above.
- / Adapted to low temperatures: Comes standard with an electrical heating feature, ensuring normal operation in low temperatures.
- / Quick charging: Can charge and operate at the same time, fully charged in 2 hours.
- / Long-working: 4000 charging cycles, capacity retention greater than 80%.
- / Maintenance-free: Battery does not require manual maintenance.
- / Green and clean: Pollution-free, zero emissions.

DESIGN PHILOSOPHY

Rapid charging and opportunity charging ensure continuous availability of vehicles

Li-Ion powered forklifts are always available. They allow for fast full charging or boost charging (100% charge in 2 hours). They are maintenance free and do not require a battery change when used for multi-shift operations.

HANGCHA provides Li-Ion battery (LiFePO4) with 5 years or 10000 hours warranty.

FORKLIFT LINE UP

CLASS 1 - 7

We got over 70 patents in National forklift truck field, and participate in National, and industrial standard formulation. Our new forklift truck of independent intellectual property rights won the national, and provincial scientific and technological progress awards over 50 times.

Our test center was awarded the National Laboratory Certificate, and is the only one in the industry which gets the Export Exemption Certificate.

Electric Forklift Truck

Hangcha's three and four-wheel electric forklifts provide efficient performance in both indoor and outdoor applications. Hangcha Group offers both cushion and pneumatic tyre electric forklifts, with load capacities ranging from 600kg to 48,000kg for use in a wide variety of applications.

Narrow Aisle Trucks

Narrow aisle operation demands efficiency, safety, and performance. Hangcha has designed electric reach trucks, high level order pickers, and a stock picker to meet all three requirements with world class engineering and dependability that Hangcha Group is known for. Powered using either lead-acid or lithium-ion batteries, Hangcha's narrow aisle equipment is the perfect addition to your warehouse or distribution center.

A series centre-control rider pallet truck

Capacity 3.0-4.0t

A series man-down turret truck

Capacity 1.2t

IC Forklift Truck

The X series is the new series of internal combustion counterbalance forklift truck developed by Hangcha independently, adopting the world advanced technologies based on the original products. Through a comprehensive upgrade of the exterior design, energy conservation, environmentally friendly, comfort, security and reliability, it will become the world-class forklift truck which can meet your overall demands.

IC Forklift Trucks

Tow Tractor/ Burden Carrier

Hangcha's tow tractors and burden carrier offer load capacities ranging from 2,000-32,000kg. The tow tractors are powered by either lead-acid or lithium-ion technology. The burden carrier is powered by lead-acid technology. This equipment is perfect for the automotive, aviation, and manufacturing industries.

Rough Terrain Forklift

Hangcha's rough terrain forklifts with 4WD were developed from the XF series forklifts manufactured by the Hangcha Group. They are equipped with either Deutz or Kubota diesel engines, providing the power needed to navigate through any type of terrain. These forklifts, with up to a 5,000 kg load capacity, easily handle the rugged roads found in the stone industry, lumber industry, and construction sites. The 4WD system, combined with the unique tire tread, provides traction in wet and slippery conditions. These rough terrain forklifts are Hangcha's "go anywhere" series.

Speciality Equipment

HANGCHA self-propelled electric scissor lifts are the high efficient, safe and ideal solution for modern industry. Ideal for maneuvering in tight spaces, they're excellent for indoor and outdoor application, all the functions, lifting, lowering, forward, and backward are under operator's control. Easy maintenance and service after opening the battery cover, all key parts are easy access. With low noise level and high reliability, HANGCHA self-propelled electric scissor lifts are always your best partner.

Self-propelled electric scissor lifts

Work height: 6.0-16m

Articulating booms

Work height: 12-21m

Vertical mast lift

Work height: 11m
